	Paraconsistent sequential linear-time temporal logic and its application to clinical reasoning verification: A brief survey and future work
	International Journal of Applied & Experimental Mathematics 2 (2), IJAEM-121, 2 pages, Graphy Publications, 2017.
	○ <u>上出哲広</u> (Norihiro Kamide)、※ <u>松尾洋祐</u> (Yosuke Matsuo), <u>小川充洋</u> (Mitsuhiro Ogawa)
	In this note, we present a brief survey of both paraconsistent sequential linear-time temporal logic and its application to clinical reasoning verification. Some recent works and plans for future work are also addressed.
